

# Dolphin Multiplication & Division

## Materials:

- Scissors
- Blue construction paper
- Crayons
- Glue

## Directions:

1. Decide what the numbers will be. (e.g.  $3 \times 2 = 6$  and  $6 \div 2 = 3$ )
2. Cut out the dolphins and islands to make the problem.
3. Glue the dolphins swimming around the islands to create the problem. (e.g. 2 islands, 6 dolphins, 3 dolphins swimming around each island.)
4. Write the numbers showing the problems underneath the picture showing the problems.  
(e.g.  $3 \times 2 = 6$  and  $6 \div 2 = 3$ )
